

Cellular Biology and Cell Culture Reagent Promotion

Enjoy 20% Off

Listed Products from Selected Brands!

Valid till 30th June 2011

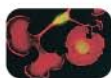

Cell BioLabs provides premium products that facilitate the discovery of mechanisms underlying cell function and diseases to researchers all over the world.

www.cellbiolabs.com

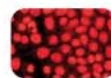

Product Range

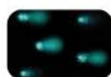

Cell-Based Assays

Cell Signalling and Protein Biology

MicroRNA Analysis

Oxidative Stress/Damage

Stem Cell Research

Viral Expression

nacalai tesque

The quality for certainty.

Nacalai Tesque provides researchers all over the world with a wide variety of high quality Cell Culture products required in experiments.

Use e-Nacalai, our Online Catalog!

Visit: <https://www.nacalai.co.jp/ss/ec/>

The screenshot shows the e-Nacalai Online Catalog search page. It includes a search bar with a dropdown menu set to 'contains (Keyword Search)'. Below the search bar, there are fields for 'Product name', 'Product number', and 'Manufacturer search'. There are also fields for 'CAS.No.', 'CI.No.', and 'EC.No.' with a '(No)' option. A 'Search' button is visible at the bottom right of the search area.

Features

- **Cryopreserved** as Primary Cells for highest viability and plating efficiency
- **Complete** cell systems (cells, media, subculture reagents) tested for optimal performance
- **Performance** guarantee and warranty

Cell Culture Systems Available (Inclusive of Optimized Medium)

- Normal Human Endothelial Cells
- Normal Human Smooth Muscle Cells
- Normal Human Epidermal Keratinocytes and Melanocytes
- Prostate Epithelial Cells
- Renal Epithelial Cells
- Bladder Epithelial Cells
- Lung Epithelial Cells
- Human Fibroblasts

Other Products Available

- Human and Non-human Stem Cell Systems
- Subculture Reagents
- Staining Kits
- Cell Media
- And more!

Providing high quality cell culture sera, media and reagent products

US Origin Fetal Bovine Serum

- Triple 0.1 um Filtered
- Current USP Sterility Tested
- Mycoplasma and Virus Tested

20%
Discount!

US Origin Fetal Bovine Serum Product No.	Volume (ml)
43640-100	100
43640-500	500

Trypsin-EDTA Solution 1X

- 0.1 µm Filtered
- Current USP Sterility Tested
- Contains 2.5 g/L irradiated porcine trypsin and 0.2 g/L EDTA 4Na in Hank's
- Balanced Salt Solution
- Without calcium and magnesium
- With phenol red

20%
Discount!

The optimum pH of Trypsin EDTA solution is 7-9.

0.25% Trypsin-EDTA Solution Product No.	Volume (ml)
82702-100	100
82702-500	500
